

# ITF2016 Pre-event PPMC Stakeholder Meeting

May 17th 15.30 – 18.30 pm

**KONGRESSHALLE am Zoo Leipzig**  
**Pfaffendorfer Straße 31**  
**04105 Leipzig**

---

The Paris Process on Mobility and Climate (PPMC) ([www.ppmc-transport.org](http://www.ppmc-transport.org)) is convened by the Partnership on Sustainable, Low Carbon Transport (SLoCaT) and Michelin Challenge Bibendum (MCB).

The PPMC was created initially to strengthen the voice of the sustainable transport community in the UNFCCC process, especially with a view to the upcoming Conference of Parties (COP21) in December 2015 in Paris. Following its success in 2015, partners in the PPMC decided that in the follow-up to the Paris Agreement on Climate Change and the adoption of the 2030 Global Goals the PPMC will continue its advocacy activities in 2016 in a manner that combines action on sustainable development and climate change.

The PPMC is inviting partners and other interested organizations to discuss and review its strategic approach at a Stakeholder meeting on May 17<sup>th</sup> from 15.30 – 18.30 pm in Leipzig, Germany.

Program for the May 17<sup>th</sup> consultation event:
